Cervical Spine Anatomy and Neck Pain - Spine-Health Neck anatomy is a well-engineered structure of bones, nerves, muscles, ligaments and tendons. The cervical spine (neck) is delicate housing the spinal cord that sends messages from the brain to control all aspects of the body while also remarkably strong and flexible, allowing movement in all directions. **Cervical screening: role of the cervical screening ...** This document outlines the role and responsibilities of a cervical screening provider lead (formerly called a hospital based programme co-ordinator. **Cervical cancer - NHS** Cervical cancer develops in a woman's cervix (the entrance to the womb from the vagina). It mainly affects sexually active women aged between 30 and 45. **Symptoms of cervical cancer.** Cancer of the cervix often has no symptoms in its early stages.

Cervical Spondylosis: Causes, Symptoms, Home Treatments ... Cervical spondylosis is a common, age-related condition that affects the joints and discs in your cervical spine, which is in your neck. It's also known as cervical osteoarthritis or neck arthritis. **Cervical screening: programme overview - GOV.UK** Screening is the process of identifying individuals who appear healthy but may be at increased risk of a disease or condition. The process is not perfect and in every screen there are a number of. **Cervical - definition of cervical by The Free Dictionary** Sherrington, by experiments on dogs, showed that many of the usual marks of emotion were present in their behaviour even when, by severing the spinal cord in the lower cervical region, the viscera were cut off from all communication with the brain, except that existing through certain cranial nerves.

Cervical Spine Anatomy Video Video Transcript. The cervical spine, or neck, begins at the base of the skull and through a series of seven vertebral segments connects to the thoracic, or chest, region of the spine. The first cervical vertebra is unique, as it is a ring called the atlas that rotates around part of the second vertebra the axis. **Cervical screening - NHS** A cervical screening test (previously known as a smear test) is a method of detecting abnormal cells on the cervix. The cervix is the entrance to the womb from the vagina. **The cervix is the entrance to the womb from the vagina.** **What are the Cervical Lymph Nodes? (with pictures)** The cervical lymph nodes are glands in the human lymphatic system, which is a complicated series of vessels and passageways that bring specialized fluid to the heart and most major organs.

Cervical vertebrae - Wikipedia Cervical vertebrae. In vertebrates, cervical vertebrae (singular: vertebra) are the vertebrae of the neck, immediately below the skull. Thoracic vertebrae in all mammalian species are those vertebrae that also carry a pair of ribs, and lie caudal to the cervical vertebrae.
