The Changing Face of HIV - HIV/AIDS Resource Center for ... The face of HIV/AIDS is no longer what we have come to expect; we are not the dying and sick that the media has come to portray over the years. We are in fact your brothers, sisters, coworkers. HIV treatments directory - Changing HIV treatment HIV and related materials, including patient information booklets, email bulletins, listings of HIV services, reference materials for professionals working in HIV, books, posters and illustrated leaflets. The Changing Face of HIV Infection - PubMed Central (PMC) Since the first report, in 1981, of AIDS in five men who have sex with men (MSM) in Los Angeles,1 the AIDS epidemic has swept the world. In the US, during the intervening 27 years, the demographics of the disease have changed dramatically. What was once a disease of Caucasian MSM has evolved into a.

The Changing Landscape of HIV Treatment Part 1 of a 4-part interview with an infectious disease expert explores treatment advances in HIV since the AIDS epidemic in the 1980s. Changing Times for HIV - ght.org.uk Although there is still no cure for HIV, treatments have developed to such an extent that by taking them, people can reduce the amount of HIV in their bodies to undetectable levels, which not only benefits their own health, but also means that the chances of passing on HIV to someone else during sex are in effect close to zero. The Challenge of a Changing HIV Epidemic | SHARE We have come a long way in our response to the HIV epidemic since its beginning. Many critical steps have been made. In the last seven years, new HIV infection rates have dropped almost 30 percent worldwide. During that time, the number of people with access to life-saving antiretroviral therapy (ART) has increased almost threefold. But itâ€™s.
